- Write your slides inside frame environments

# How to use Beamer

Beamer is easy and fun and great!

- Set your documentclass to beamer
- Put title information in the preamble, and then maketitle
- Write your slides inside frame environments
- Set a theme, and a color theme

## Theorem

*There are infinitely many primes.*

## Proof.

Assume not, and let  $p_1, \dots, p_n$  be all the primes. Then

$$1 + \prod p_i$$

is also a prime, contradicting the assumption. Hence there are infinitely many primes. □
